

Reduce Dust and Odors that Cause Health Problems, Cost Money and Hurt Your Business

DAYSPAS & SALONS

Hair and Nail Salons, Make-up, Hair Removal and Massage

Most DaySpas and Salons have dust and odor problems from procedures, activities and chemicals. Constantly dusting wastes employee time and airborne dust and odors can even harm staff and customer health.

The Purifan Clean Air System is easy to install in any building, even rented buildings, and can even be easily moved to new locations. Purifans mount to the ceiling, are very quiet, produce comfortable ceiling fan airflow while filtering the air in a 20 x 20 x 8 foot area every 90 seconds. Low-cost, energy-efficient Purifans are professionally installed, cleaned and serviced by our Local Authorized Purifan Dealers.

Salons smell better, and have less dust

How Purifans Pay for Themselves in Your Business.

"I just had to tell you how amazed I was at the fantastic performance of the Purifan Air Cleaner. It completely eliminated the hair particles and odor in the room that are common issues associated with electrolysis. We just purchased another Purifan unit for the employee kitchen area to eliminate the smelly cooking odors. The Purifan makes a world of difference in our air."

Benefits of Cleaner Air in Your Business

Reduce staff absenteeism with cleaner indoor air quality. Respiratory related illnesses are the number one cause of employee absenteeism and healthcare costs.

Reduce undesirable and unhealthy odors and dust from common procedures like laser hair removal, nail manicures, make-up areas and hair coloring or cutting procedures.

Improving the air quality in your business will make it more competitive and generate more customer referrals.

Less dust, less wasted employee time dusting. Dust can even clog up HVAC system and increase utility costs.

Reduce undesirable odors, fumes, gasses and chemical odors. Helps employees and customers feel better.

Savings generated in just a few months will return more than your investment. Purifans will pay-off for your business for many years with their lifetime warranty.

Employees with allergy problems or on a lot of medicine make more mistakes. The ACAAI* studies show people with allergies and bronchitis make more data entry errors and have more on-the-job accidents. *American College of Allergy, Asthma and Immunology, ACAAI

Improve staff productivity because employees who feel better, sleep better and use less over-the-counter or prescription drug medicine will perform better. *ACAAI

Cleaner indoor air will reduce the spread of common colds, influenza and other respiratory illnesses that are sometimes transferred by airborne droplets. *CDC

Lower heating and cooling costs. Eliminates hot or cold spots. Rooms feel more comfortable.

Lifetime warranty. Low energy and filter costs.

"Many DaySpas and Salons generate a lot of undesirable dust and odors. Purifans can save wasted employee time dusting and will also reduce these odor problems. Purifans in the treatment areas capture the dust and odors. Owners spend a lot of money to attract customers. Purifans can improve their experience in your facility. Repeat and referral customers are critical to growing any business. Purifans are a great solution to this problem."

Stan Brannan, President of Purifan

We have a lot of competitors and we know it is important that we treat our customers right. That is why we installed Purifans. The dust from nail treatments and make-up areas create a cleaning problem for any DaySpa. The Purifans capture the dust and odors, but the best part is the cool airflow they generate in a room. Our employees can get hot working on clients, but the cooling breeze created by the Purifans is a blessing. We also spend much less time dusting and customers appreciate the clean, fresh smell and equate it to cleanliness. Every Salon or DaySpa owner should install Purifans.

Also available in Bronze, Pewter and Black

5-Stage Advanced Filtering System

Reduces odors, smoke, dust, pollen, pet dander, mold spores and other common office allergen particles. Filters are easy to replace.

PurusAire II - Allergen and Odor Filter - For Allergy, Asthma and removing airborne allergens. Filter life depends on your situation. Typical life in a salon is about 4 months.

The Purifan Clean Air System is the ideal indoor air pollution solution for homes, schools, day care centers, nursing homes, offices and smoke removal applications, delivering volumes of clean, odor-free air to any room. The Purifan installs easily just like a ceiling fan. The Purifan still circulates the air providing cooling and heating benefits for your facility. The only difference is... **THE PURIFAN SYSTEM FILTERS THE AIR** through the hidden Advanced Filter System trapping millions of floating allergen particles, releasing over 2,000 CFM of fresh, clean breathable air. The whole-room air flow pattern cleans every corner of a typical 20 x 20 foot room 40 times per hour. This is 20 to 100 times more clean air than popular floor or shelf models.

A Purifan is quiet, out-of-the-way, uses only 60 watts of electricity and requires little maintenance. It can be installed on most 4 or 5-bladed 52-inch ceiling fans, with or without a light kit. It comes with the first set of filters and a lifetime limited warranty if only Purifan filters are used. Purifans are the lowest cost solution that really works. Our local Purifan Product Specialists are trained to install and service your Purifans.
