

Food Tastes
Better When Your
Restaurant
Smells Better

RESTAURANT ODORS

Purifans Can Boost Food and Bar Sales

How important is cleanliness, odor and air quality to the success of your business? Very Important!

Purifans reduce common odors found in most restaurants which makes food taste better and keeps your facility smelling cleaner, with less dust.

The Purifan Clean Air System is easy to install. Purifans mount to the ceiling, make no noise, produce ceiling fan airflow while filtering the air in a 20 x 20 foot area 40 times per hour. Purifans make any room healthier and smell fresher. Purifans are the air cleaners of choice for restaurants and bars who want cleaner, fresher air at the lowest total cost. Customers will notice the difference.

Reduce Odors and Boost Sales

Purifans reduce common odors and food tastes better.

Odors in your facility impact people's opinion of cleanliness and the taste of your food. How does your restaurant smell when you first open the door in the morning?

Purifan filters the air up to 40 times per hour, removing unwanted cooking, building, cleaning and smoking odors.

Purifans are ideal for Restaurants because they reduce dust. Less visible dust on surfaces and bar bottles.

Purifans keep your employees healthier. Fewer sick days for employees. Respiratory related illnesses are the number one cause of employee sick days

Purifans are the ideal solution for smoking sections. Purifans have been chosen by thousands of restaurants and clubs to reduce cigarette smoke and odor.

Purifan does such a great job, customers will comment on the clean fresh smell and feel of the air.

Increase food and bar sales when smoking and non-smoking customers stay longer and return more often.

Cleaner indoor air quality will reduce the spread of common colds, influenza and other respiratory illnesses that are often transferred by airborne droplets. *CDC

Lower employee health insurance costs because respiratory related illnesses like allergies and asthma generate health care expenses for many employees.

*Blue Cross and Blue Shield

Lower heating and cooling costs. No hot or cold spots in the rooms, everyone feels comfortable.

Lifetime warranty if Purifan Filters are used.

What Customers Say About Their Purifans™

"Purifans really helped remove the smells and odors in our store.

Customers and employees noticed the difference immediately. It filters the air and cleans the odors. You can really tell when you arrive at the restaurant the next day. The Purifans eliminate the odors better than anything else I've tried. I wouldn't build a new

restaurant facility that didn't have Purifans. When I get calls from other steak house operators I tell them to get Purifans. We love them."

**Sonny Glennon, Owner
Scotch and Sirloin, Wichita, KS**

"We are a smoking establishment, and we tell customers you can sit anywhere. I ask the customers who are non-smokers, do you see any smoke in here? They realize the smoke is being taken care of, and they become loyal customers. Purifans do a great job in all of our restaurants, and they help us keep customers we would not have if we didn't solve the smoke problem."

**Wade Hays, Owner
Toots Restuarants, Murfreesboro, TN**

"After the smoking ban passed we turned off the Purifans. The odors of the restaurant became instantly apparent and the bar got very dusty. We've now used Purifans to eliminate the odors and keep our restaurant air fresh and clean. We found out they clean allergens so well that they cut respiratory sick days in offices and schools by over 50%. I want my employees healthy and at work. It is great for our customers's health too! We highly recommend Purifans to anyone."

**Dottie Miller
Houston, TX**

Your Indoor Air Pollution Solution

Matching ceiling fan motor and light kits are available. Many existing ceiling fan motors are compatible with Purifan.

Color Shown: Ivory. Also available in Bronze, Pewter and Black

5-Stage Advanced Filtering System

Reduces smoke, odors, dust, pollen, dander mold spores and other allergen particles and restaurant smells.

Advanced Filters tuck snugly inside the Purifan and are easily replaced.

PurusAire I - Allergy and Odor Filter - For Allergy, Asthma and removing airborne allergens. Filter life depends facility situation.

The Purifan Clean Air System is the ideal indoor air pollution solution for homes, schools, day care centers, nursing homes, offices and smoke removal applications, delivering volumes of clean, odor-free air to any room. The Purifan installs easily just like a ceiling fan. The Purifan still circulates the air providing cooling and heating benefits for your facility. The only difference is... **THE PURIFAN SYSTEM FILTERS THE AIR** through the hidden Advanced Filter System trapping millions of floating allergen particles, releasing over 2,000 CFM of fresh, clean breathable air. The whole-room air flow pattern cleans every corner of a typical 20 x 20 foot room 40 times per hour. This is 20 to 100 times more clean air than popular floor or shelf models.

A Purifan is quiet, out-of-the-way, uses only 60 watts of electricity and requires little maintenance. It can be installed on most 4 or 5-bladed 52-inch ceiling fans, with or without a light kit. It comes with the first set of filters and a lifetime limited warranty if only Purifan filters are used. Purifans are the lowest cost solution that really works. Our local Purifan Product Specialists are trained to install and service your Purifans.
