

Thousands of Fraternal Clubs and Bars Installed Purifans to Reduce Smoke and Odors

SMOKING ODOORS

Purifans Can Boost Food and Bar Sales

What do Our Customers Love About Their Purifans? They Work! Purifans reduce smoke and odors found in most Fraternal Clubs. This makes the members happy, and boosts their participation in club events. Members want a solution for smoke and odor. They want Purifans!

The Purifan Clean Air System is easy to install. Purifans mount to the ceiling, make no noise, produce ceiling fan airflow while filtering the air in a 20 x 20 foot area 40 times per hour. Purifans make any room healthier and smell fresher. Purifans are the lowest cost solution when you consider purchase cost, filter cost and energy costs. They also last a lifetime!

Reduce Smoke Odors and Boost Sales

Purifans reduce smoking odors that drive people away. Reducing smoking odors can boost bar and food revenues by 20%, 50% even 200% according to our customers.

Purifan is the lowest cost solution when you consider initial cost, filter costs and energy costs. Purifan use 1/2 amp compared to 8 to 10 for noisy electrostatic units.

Purifan filters the air up to 40 times per hour, removing unwanted cooking, building, cleaning and smoking odors.

Purifans are ideal for Social Clubs and Bars because they are quiet. They won't bother talking or activities.

Purifans keep your employees healthier. Fewer sick days for employees.

Purifans are the ideal solution for smoking sections. Purifans have been chosen by thousands of restaurants and clubs to reduce cigarette smoke and odor.

Fraternal Clubs have reported a boost in member participation after installing Purifans.

Increase food and bar sales when smoking and non-smoking customers stay longer and return more often.

Cleaner indoor air quality will reduce the spread of common colds, influenza and other respiratory illnesses that are often transferred by airborne droplets. *CDC

Your customers will recommend your club or bar to others and this is key to growing any business.

Lower heating and cooling costs. Ceiling fan air movement means no hot or cold spots in the rooms, everyone feels comfortable.

Lifetime warranty if Purifan Filters are used. Electrostatic models usually fail in 24 to 36 months.

What Customers Say About Their Purifans™

"Purifans really helped remove the smells and odors in our store.

Customers and employees noticed the difference immediately. It filters the air and cleans the odors. You can really tell when you arrive at the restaurant the next day. The Purifans eliminate the odors better than anything else I've tried. I wouldn't build a new restaurant facility that didn't have Purifans. When I get calls from other steak house operators I tell them to get Purifans. We love them."

**Sonny Glennon, Owner
Scotch and Sirloin, Wichita, KS**

"We are a smoking establishment, and we tell customers you can sit anywhere. I ask the customers who are non-smokers, do you see any smoke in here? They realize the smoke is being taken care of, and they become loyal customers. Purifans do a great job in all of our restaurants, and they help us keep customers we would not have if we didn't solve the smoke problem."

**Wade Hays, Owner
Toots Restaurants, Murfreesboro, TN**

"All the Fraternal Clubs we visited loved their Purifans. The clubs all reported increased food and bar revenues after installing Purifans. Most had tried other solutions and knew service and energy costs were much higher than Purifans. We found out they clean allergens so well that they cut respiratory sick days in offices and schools by over 50%. I want my employees healthy and at work. It is great for our member's health too! We highly recommend Purifans to anyone."
