

Cleaner Air in
Your Home Will
Keep Your
Family Healthier

HOME AIR QUALITY

Homes, Bedrooms, Basements, Children's Rooms, Apartments

Do the particles and odors in the air in your home impact your health?

Yes, they do! Improving your indoor air quality is easy with the low-cost, quiet, patented Purifan. It installs on your ceiling fan and filters the air better than any other air cleaner.

The Purifan Clean Air System is easy to install in any home or apartment, and it can be moved to your next home. Purifans are low-cost, make no noise and produce ceiling fan air-flow while filtering the air in a 20 x 20 x 8 foot area 40 times per hour. Purifans capture most allergens and common odors. Purifans are the lowest cost solution that really works. You will live healthier with Purifans.

Why Filter the Air in Your Home?

Indoor Air Quality has a big impact on your family's health. Respiratory related illnesses are the number one cause of missed school or work sick days and healthcare costs.

Purifan filters 60 to 100 times more air per minute than the most advertised ionic stick model air cleaner.

Sick days can be reduced by as much as 50% which is the major reason schools and companies buy Purifans.

Many people have allergies, but almost every person is affected by high levels of particulates.

While you sleep, Purifan gives your lungs a chance to repair the damage caused by breathing particles during the day.

Homeowners love the way Purifans reduce the dust and odors. The air feels and smells better.

Homeowners install Purifans for pet odors, musty odors or smokers in the house.

Purifans have the air cleaning power to work for schools, day-cares, government offices, medical facilities and smoking sections of bars or clubs. That means they have the power to really improve the air quality in your home.

Cleaner indoor air quality will reduce the spread of common colds, influenza and other respiratory illnesses that are sometimes transferred by airborne droplets. *CDC

Lower your health insurance costs because respiratory related illnesses like allergies and asthma can cause many health care expenses. *Blue Cross and Blue Shield

Lower heating and cooling costs. No hot or cold spots in the sun or shade.

Lifetime warranty if you use Purifan Certified Filters.

Ideal for family rooms and your bedrooms

What Customers Say About Their Purifans

"The Purifan is a huge benefit to me. Not to have to suffer with allergies, not having to take any over the counter drugs at all and just having clean air in my home is awesome. It's made a huge difference."

**Pamela D.
Residential User**

"It is the best solution for clearing up cigarette smoke and odor in your home. If it works so well in bars, casinos and bingo halls, you know it will work in your home."

**Denice C.
Smoker**

"I had so many respiratory health problems before the Purifans. My building is only a few years old, but I had so many repeat ear infections I had to have tubes in my ears. My husband begged me to quit for my health. After Purifans were installed in my classroom I never got sick one day. It worked so well at my classroom, I put a Purifan in my bedroom. My macho husband always proclaimed 'I don't have allergies.' But the first morning he couldn't believe how much less congestion he had. A great bonus is we both stopped snoring! Now that alone is a reason to install Purifans."

**Glenna Weir
Pre-school Teacher
Wichita, KS**

"It eliminated our children's allergies entirely. What a great product. We've saved a bundle in health costs for ear infections and repeat sinus infections. Our children miss less school and I stay at work. Plus their room smells so much better and has NO DUST! We told our friends and know they love theirs too!"

**Peggy Thompson
Dallas, TX**

Your
Indoor
Air
Pollution
Solution

Matching ceiling fan motor and light kits are available. Many existing ceiling fan motors are compatible with Purifan.

Color Shown: Ivory.
Also available in Bronze, Pewter and Black

5-Stage Advanced Filtering System

Reduces smoke, pet dander, household odors, dust, pollen, mold spores and other most common allergen particles.

Low-cost filters tuck snugly inside the Purifan and are easily replaced.

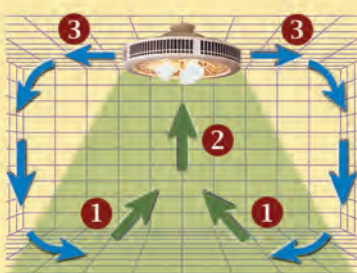

PurusAire 1 - Allergy and Odor Filter - For Allergy, Asthma and removing airborne allergens. Filter life depends facility situation.

The Purifan Clean Air System is the ideal indoor air pollution solution for homes, schools, day care centers, nursing homes, offices and smoke removal applications, delivering volumes of clean, odor-free air to any room. The Purifan installs easily just like a ceiling fan. The Purifan still circulates the air providing cooling and heating benefits for your facility. The only difference is... **THE PURIFAN SYSTEM FILTERS THE AIR** through the hidden Advanced Filter System trapping millions of floating allergen particles, releasing over 2,000 CFM of fresh, clean breathable air. The whole-room air flow pattern cleans every corner of a typical 20 x 20 foot room 40 times per hour. This is 20 to 100 times more clean air than popular floor or shelf models.

A Purifan is quiet, out-of-the-way, uses only 60 watts of electricity and requires little maintenance. It can be installed on most 4 or 5-bladed 52-inch ceiling fans, with or without a light kit. It comes with the first set of filters and a lifetime limited warranty if only Purifan filters are used. Purifans are the lowest cost solution that really works. Our local Purifan Product Specialists are trained to install and service your Purifans.
