PURIFANS IN SCHOOLS

Purifans are typically installed in schools without any light kits. Most classrooms have adequate lighting from their overhead fluorescent lights. Purifans are available in four colors. The classroom on the left has Pewter Purifans on Purifan-supplied matching motors.

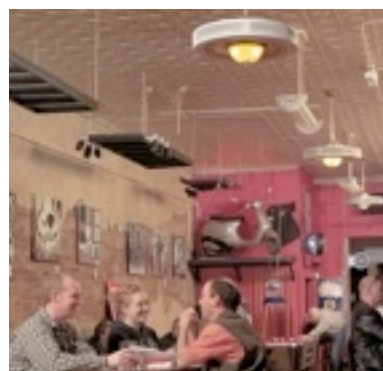

Matching motors are available in 52-inch which produces about 2,200 CFM and the more powerful 56-inch type that produces more than 3,500 CFM. Only \$419.95 for installation on existing fans. Only \$695 installed with new 52-inch motors.

RETAIL STORES REDUCE DUST

Retail stores control dust that settles on merchandise making the store look dirty.

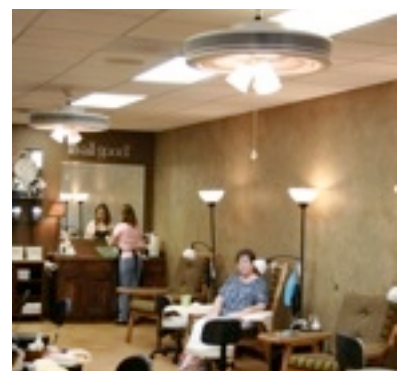

Shown: Bronze Purifan with Light Kit LK-758. It uses 3 candelabra lights
Light Kit Price \$29.99

BARS AND CLUBS REDUCE SMOKE

Bars and clubs reduce smoke and odors to help guests stay longer and return more often. On Hunter ceiling fans

HAIR AND NAIL SALONS REDUCE DUST

Purifans reduce unhealthy dust and odors found in most hair and nail salons. This is an Ivory Purifan with 3 globe light kit.

Shown: Ivory with Light Kit LK758
Light Kit Price: \$29.99

PURIFANS IN OFFICES

Purifans can be installed in offices, call centers, waiting rooms, fitness clubs, homeless shelters, retail stores and health clinics with or without light kits. Filtering the air will reduce dust, odors, allergies and the spread of contagious illnesses like colds and flu. Purifans are available in four colors. The office area on the left has Ivory Purifans on customer-supplied ceiling fan motors. Purifan can supply 52-inch motors which produces about 2,200 CFM and the more powerful 56-inch motor that produces more than 3,500 CFM. Price \$419.95 + S&H, taxes and installation without a motor.

REDUCE DUST AND ODORS IN RETAIL STORES

This is a knick-knack store with a lot of merchandise on display. Purifans keep the store cleaner and require less employee time dusting.

Shown: Bronze Purifan without lights

Price: \$695 installed with motors.

CIGAR AND LIQUOR STORES

These stores want to keep merchandise cleaner without wasted time dusting.

Shown: Pewter Purifan without a light kit.

Price: Purifan with a new motor \$494.90 + S&H + sales tax, and you can install it yourself. Priced at \$695 installed by dealer.

PURIFANS IN FITNESS CLUBS

Purifans can help a fitness club attract more customers by offering "allergy-friendly" filtered air. Filtering the air will reduce dust on equipment, body odors, allergies and the spread of contagious illnesses like colds and flu. Purifans are available in four colors. The fitness facility on the left has Ivory Purifans on Purifan-supplied matching motors. Matching motors are available in 52-inch which produces about 2,200 CFM and the more powerful 56-inch type that produces more than 3,500 CFM.

GOVERNMENT OFFICES AND PUBLIC WAITING ROOMS

Keeping employees healthy is important, especially if they have to deal with visitors.

Shown: Ivory Purifan without Light Kit

Price: \$695 dealer installed with new motors.

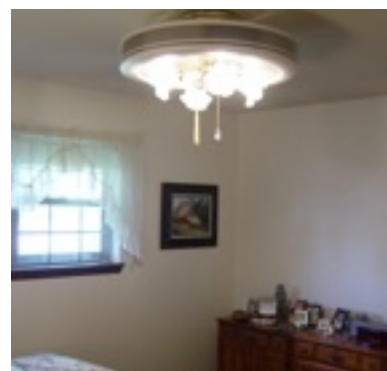

NURSING HOMES AND ASSISTED LIVING FACILITIES

Reducing unpleasant odors and helping reduce the spread of colds and flu will help any nursing home or retirement facility.

Shown: Ivory Purifan without lights

Price: \$695 dealer installed with motors.

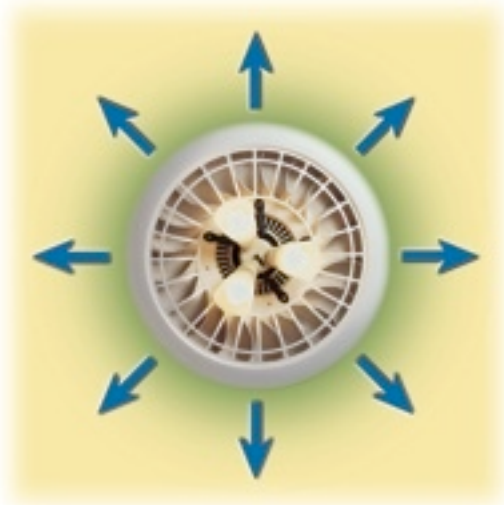

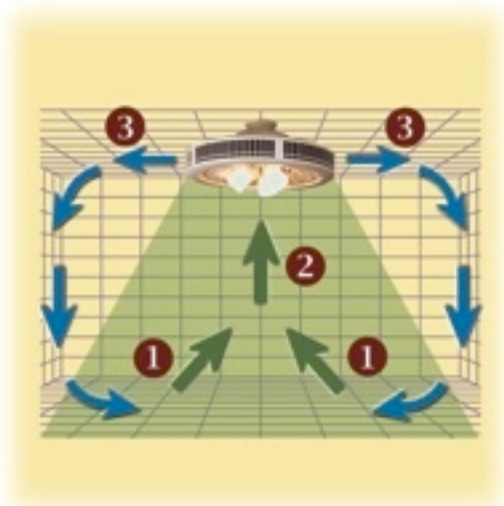

APARTMENTS AND HOTEL ROOMS

Purifans reduce dust and odors and allow hotels and apartment complexes to advertise "Allergy-Friendly Rooms" to attract more prospects

Shown: Ivory with four-globe light kit

Price: \$524.85 and the customer installs

LOW-COST DISPOSABLE FILTERS

It is easy to change the low-cost disposable filters. In a home they last 9 to 12 months. In a school they are typically changed 2 times per year. In offices, day-cares and nursing homes, the filter may last 4 to 6 months depending on the odor situation.

HOW A PURIFAN WORKS

1. PURIFANS AIRFLOW FORCES DIRTY AIR TO THE CENTER OF THE ROOM.
2. DIRTY PARTICLE-FILLED AIR IS DRAWN INTO THE HIDDEN PURIFAN 5-STAGE FILTERS.
3. FRESH, FILTERED, ODOR-FREE AIR IS SENT OUT THE SIDES OF THE PURIFAN IN ALL 360 DEGREES, IT THEN TRAVELS DOWN THE WALLS PUSHING DIRTY AIR TO THE CENTER OF THE ROOM.

WHY PURIFANS ARE THE BEST AIR PURIFIER ON THE MARKET

Purifans are located in the ideal, center-of-the-room location, overhead, out of the way. The Purifan filters more air per minute than any other air purifier. The 2,200 CFM of filtered air will cover a 20 x 20 foot room and filter the air 40 times per hour. You still get the cooling and heating benefits of a ceiling fan, but the Purifan is even quieter than most ceiling fans. This quiet operation makes it ideal for bedrooms, TV rooms, offices, school classrooms, day-cares and nursing homes. The Purifan uses only 60 watts of energy and uses low-cost disposable filters. The Purifan comes with a Limited Lifetime Warranty. Purifans can be operated with Allergy filters with capture media that captures .3 micron allergens. Purifans can also use the PA-2 Smoking filter with potassium permanganate and alumina to capture more chemicals, toxins and odors. Purifans are easy to install in any room.

ORDER ONLINE, BY PHONE OR FAX.

You can install a Purifan on most existing 52-inch to 60-inch four, five or six bladed ceiling fan motors. If you need to replace the motor we offer high quality matching motors in 52-inch and 54-inch models with a variety of light kits

- Decide if you want a package with a motor or if you plan to use your own motor.
- Select a color. IVORY, PEWTER, BRONZE OR BLACK.
- Select a filter type: Allergy or Smoking
- Save even more money if you buy filters by the case.

Purifans are shipped UPS Ground and Purifans have a Lifetime Limited Warranty.
