

Clean Air for Kids School Grant Application

(Purpose: The purpose of these documents is to gather the information needed to apply for a multi-year grant to install Purifan classroom air purifiers in one school building. If a school district wants to include multiple elementary school buildings, they should fill out one of these applications for each school building. This information will not be shared with any outside party with notifying the school of who will have access to the information on this form. A summary of information will be prepared with basic information like the number of classrooms, teachers and students in the building. The total proposed cost of the first five years and a then a continuation of the filter changes for an additional five years may be submitted and funded by the funding source. If you have any questions you can email them to caf.k.purifan@gmail.com or call the 800 number on our website. Purifan will seek grants for public, religious-affiliated and private schools. Once funded a final contract with the school will be agreed to.)

1. Name of the School?

2. Address of the school building?

City: _____ ST: _____ Zip Code: _____

3. District or Group Link? I.e. USD259

4. Grades Served. Circle

pre-K. K. 1st. 2nd. 3rd. 4th. 5th. 6th. 7th. 8th. 9th. 10th.

Number of classrooms for each grade? Leave blank for only 1 for each grade.

pre-K. K. 1st. 2nd. 3rd. 4th. 5th. 6th. 7th. 8th. 9th. 10th.

Estimated Percentage of students who are on Medicaid health insurance? If unknown, how many students qualify for Free Lunch program? _____. Approximate number of total students in this school building? _____

5. Describe the age and condition of various parts of the school facility.

6. Describe the age and condition any HVAC or cooling or heating systems.
(Optional Information)

7. Contact information for the School Leadership, facilities maintenance and the person or group filling out this application. Cell phone numbers preferred and at least one email.

8. Facilities Maintenance Contact

Please provide the contact information for a member of the facility maintenance staff who can answer questions about installation issues? What type of ceilings are in the room, can a ceiling fan motor be mounted to the ceiling? Is it a typical suspended ceiling? Phone number and email please.

9. Date of Application: _____

10. Contact Person: _____

Phone Number: _____ Text Message Capable: Yes No

How to Determine Number of Units

In order to determine the total funding needed we need an accurate calculation of the number of Purifans required. Here are some guidelines for schools to calculate the number of Purifans needed.

1. Small classrooms up to 500 square feet need one Purifan.
2. Typical classrooms over 500 square feet, but under 1,200 need Purifans
3. Teacher's Break Room - one per every 400 square feet.
4. Music room, library, or other special classrooms - one per 400 square feet.
5. Cafeteria or lunch room. One per every 400 square feet.
